No. 30

Didsbury Fair on August 10th and 11th.

GET YOUR EXHIBITS READY AND PREPARE FOR THE BIGGEST FAIR ON RECORD.

Judging from present indications relative to condition of crops and farm produce generally, together with the enthusiasm and energy being displayed by the officers and directors of the Didsbury Agricultural Society, this year's fair and exhibition promises to eclipse even last year's performance.

The grounds and track are being attended to and put into a very serviceable condition, new buildings are being erected, some for booth privileges, others for better housing of

live stock, and other improvements being carried out will help materially to the comfort and convenience of both exhibitor and spectator.

The prize lists have now been issued, and from the inquiries and applications made for these, as well as in conversation with officials of the Society, it is safe to say that the interest aroused this year is keener than that of any previous year. New exhibitors are making their appearance and the success of Didsbury's annual fair is evidenced by the wider field which the applications cover.

Manager Berscht and President Dippel both express themselves in very enthusiastic terms of the aid and assistance which they are receiving, and as far as they can see at present there is nothing to prevent a big success being recorded. Every director, too, is displaying a lively interest, one or two in particular being especially active to ensure the success of their special section.

The races in connection will be fully as good as last year, and one or two special events will probably be introduced to enliven the proceedings.

The fair this year is to be held on Tuesday and Wednesday, August 10th and 11th, and with the co-operation of the resident of town and country, there is no reason why a record attendance should not be established.

ERRATUM.—In class 14 of the Agricultural Society's prize list, a slight error was made in compilation. It should read—Class 14—Grade dairy herd, comprising pure bred sire, grade cow three years or over, grade heifer two years, grade heifer one year, and grade heifer under one year. First prize \$10, second \$5, third ribbon. All to be of same breed and progeny of pure bred sire.

Preparing Sheaves & Grains for Exhibitions.

(By P. Russel Cowan, Central Experimental Farm, Ottawa)

The preparation of attractive exhibits of sheaves of grain is an undertaking which requires considerable judgment and skill. A few suggestions, gleaned from our experience in this work, may be helpful to the prospective exhibitor.

The first essential, naturally, is the availability of strong, clean well developed, undamaged plants. Such plants can be obtained most easily, as a rule, from a special plot sown and treated in a manner conducive to the production of plants possessing the highest degree of excellence. In the absence of such plots the exhibitor has no recourse but to seek for the best plants he can find growing within his regular fields.

It is seldom possible to construct first-class sheaves from plants already harvested with the binder. Rather must the harvesting be done by hand and with special care.

For best results select only straight, uniform plants which possess well developed heads or panicles, and which are slightly immature and therefore less brittle. Cut the plants off close to the ground and spread them in layers in the sun for a short time to dry and bleach slightly. Then gather carefully and place in a well ventilated building out of the direct rays of the sun, and protected against birds and vermin.

The deal sheaf has a well rounded head, obtained by allowing the straws in the centre to stand a little higher than those towards the margins. The diameter of the ideal sheaf should not be less than 8 inches at the band. Large sheaves may be built up from a number of smaller ones tied together firmly to form a "core". Such structures, of course, require to be finished off with a thick layer of clean straws

A very enjoyable evening was spent at the Westcott school last Friday evening, when a number of young folks gathered to play games.

We are wondering who the Overland truck belongs to that has started to visit our neighbourhood.

Earl Russel has been minus his car for the last couple of weeks, through it being in the garage for a thorough overhauling.

Mrs F.T. Edwards is now recovering from a long sick spell.

Didsbury Fair, Aug. 10-11

WORLD HAPPENINGS
BRIEFLY TOLD

Heavy rains in Western Japan have drowned thirty persons and destroyed about 4,500 houses.

The jewelry left by the late Queen Alexandra has been valued at more than \$6,000,000, it is understood.

It is officially announced that the Duke of York, King George's second son, will visit Australia to open parliament in the new capital, Canberra.

It is reported that the Bill Smith claims on East Bay at Red Lake, have been taken over by the Guggenheim interests of New York. Assays are said to run very high in silver, gold, nickel, zinc and copper.

Hon. A. J. McLean, former minister of public works in Alberta, has been appointed manager of all the big ranch and farm holdings of the estate of the late George Lane in Alberta. This includes the famous Bar "U" ranch.

Joseph Samuel Barker, vice-president of the Maple Leaf Milling Company, who died in Toronto on June 6, left an estate valued at \$33,470, of which one-third consisted of real estate and the rest personally.

The gross earnings of the Canadian National Railways for the week ended July 14, 1926, were \$4,952,030 as compared with \$4,426,722, for the same period of 1925, an increase of \$525,308, or twelve per cent.

Confirmation has been obtained that the Wapagamac Pulp and Paper Company of Canada will take up an option on the Island of Anticosti in the Gulf of St. Lawrence, now owned by Senator Menier, of France. The purchase price is said to be six million dollars.

The King has approved the appointment of Sir Ronald Lindsay as ambassador at Berlin. Sir Ronald has been ambassador at Constantinople since 1925. His post will be taken over by Sir Geo. Russell-Clerk, minister at Prague.

Viscount Willingdon, who is to succeed Baron Byng as Governor-General of Canada, has been appointed by His Majesty a knight of the grand cross of the order of St. Michael and St. George, the London Gazette announces.

More than 60,000 acres of splendid crops were laid waste when a tornado, accompanied by a hail and rainstorm, swept across the sparsely settled districts of Waldron, Gerald, Atwater and Spy Hill, Sask., killing one and injuring five persons.

Practically as much money has been invested in Alberta government savings certificates to date this year as for the whole of 1925. The figures for last year, covering the entire twelve months, were \$2,149,515, and to the end of June this year, covering the first half only of 1926, \$2,109,706 had been accounted for.

Alberta Premier Coal Producer

Largest Tonnage of Coal in Canada Mined in Alberta

During 1925, Canada produced some 13,134,968 tons of coal, valued at \$49,261,951, according to a report issued by the Dominion bureau of statistics. Alberta held the premier position with an output of 5,869,031 tons, which was 679,392 tons above 1924 production. British Columbia showed a slight advance of 2,842,252 tons in 1925.

There were 25,932 people, including 1,542 salaried employees, engaged in or about the mines during 1925, to whom \$3,260,392 was paid in salaries and wages.

When a man is sick he expects the rest of the family to stop everything and listen to his groans.

Slavery in the Congo

Belgian Public Opinion Ready to Hear Plain Truths About Conditions

Enlightened Belgian opinion, with the King and Crown Prince taking the lead, appears ready to hear many plain truths regarding exploitation of the colored races when the International conference on the Christian mission in Africa assembles at Le Zoute, Belgium, Sept. 14. Many Protestant missionaries will be in attendance and they can be counted on to deal faithfully with the various colonial administrations. In return, the British, French and Portuguese missionaries will be invited to hear equally searching evidence regarding their policies and those of their governments. The King of the Belgians says: "The Congo and its inhabitants have produced largely and brought much money to the home country. Let us never forget that colonization must find its justification in the moral progress and material welfare of the native population. Is not this moral and material progress the necessary condition of the future output of colonial undertakings? We have a moral responsibility towards the native populations whose government we have assumed."

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the Sore Parts With

NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 35c bottle of Nerviline. Sold everywhere.

Development Of Wireless

Passengers On Huge Air Liners In Germany May Talk With Telephone Subscribers

While rushing through air, passengers on the huge air liners of the German air service soon will be able to pick up a wireless telephone receiver and, despite the roar of three 120-horsepower motors, talk with any telephone subscriber in any large city in Germany. Wireless telephone experiments between pilots on two of the night air routes and landing fields have proved successful. A pilot chiding over Stockholm, Sweden, in a thunderstorm, talked with Templehof Field, Berlin, for five minutes.

Disintegration of a Mountain

A mountain is crumbling to pieces near Cordova Alaska due to the pressure of a glacier at its base. An inspection of the mountain was made after reports had been received that a volcano was in eruption. A dust cloud arising from tons of rock sliding from the mountain peak had been mistaken for smoke. On the mountain's farthest from the glacier, a mass of rock, of from 500 to 2,000 tons, intermittently crashed down to a valley below with a deafening roar.

Printed Frocks the Vogue For All Occasions

When you are tired of the elaborate frock you will find joy in donning one fashioned after the simple lines of the model pictured here. It will serve its wearer with unlimited smartness and utility, if fashioned from one of the attractive printed materials, using a plain color for neck facings, collar, long tie, and trimming section at the sides. The bodice part of the frock is semi-fitted with the lower edge of the skirt rippling into a flare at the sides. Designed with a view to slenderizing the large figure, No. 1359 is in sizes 38, 40, 42, 44, 46 and 48 inches bust. Size 40 bust requires 3 3/4 yards figured material, and 7/8 yard plain contrasting. Price 20 cents.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

SUNDAY SCHOOL LESSON

AUGUST 1

THE DELIVERANCE AT THE RED SEA

Golden Text: Jehovah is my strength and song, And he is become my salvation. Exodus 15:2.

Lesson: Exodus 13:17-22; 14:10-16.

Devotional Reading: Psalm 37:1-7.

Explanations and Comments

The March From Egypt to the Red Sea, Exodus 13:17 to 14:2.—The Israelites had assembled at Rameses in the eastern part of the Delta. From there the most direct route to Canaan would have been "by the way of the land of the Philistines," northeastward along the Mediterranean coast. That way "was near," involving a journey of not more than two hundred miles at the farthest. But the people of southwestern Canaan were great warriors, and God led them not that way, "lest peradventure they repent when they see war and they return to Egypt," but by the longer route, the way of the wilderness by the Red Sea. See the geographical background. "It was God who, for good reasons, led them by one way rather than by another—by a way which would keep the people from discouragement and defeat, and by which even the Egyptians would be compelled to acknowledge the superiority and glory of Israel's God, 14:4" (Dr. J. E. McKay).

"The tortuous path of Israel was prescribed out of a tender regard for safety; and the same wise, loving-kindness determines the involutions, and circumnavigations of our pilgrimage. Indirection is not misdirection. The way is long, obscure, and apparently arbitrary; but the sufficient reason for all our perplexing wanderings is found in the weakness of our nature and the exigencies of life's discipline. He who governs the races and the ages has a sufficient reason for every detour and eccentricity" (Dr. W. L. Watkinson).

World's Non-Stop Flight Record

Aviators Travel 2,940 Miles in 29 Hours

Captain Jurier and Lieut. Dordiers have established a new world's non-stop flight record, travelling 2,940 miles in 29 hours.

The aviators started from Paris and landed at Omsk, Siberia.

The former record was established in June when the Arrachart Brothers flew from Paris to the Persian Gulf. A message from the fliers says that they encountered storms all along the route and that their gasoline tanks were practically empty when they landed.

Some spider webs are so strong that birds can be caught in them.

Answer to Last Week's Puzzle

Road Signs

British Columbia Soon to Have Motor Roads Well Marked

Every important road in British Columbia will soon be marked for the convenience of travellers with official warning signs. These signs are under preparation and will be turned out in thousands shortly for installation all over the province.

The official signs will warn motorists of dangerous curves and grades. All points where cars must stop before entering a main highway under the new government highway regulations will be clearly marked in this way. Railway crossings where motor busses must come to a full stop before proceeding, also will be marked.

Earlier Delivery of Cable Letters

Cable letters to Great Britain, Ireland and Holland will hereafter be delivered on the morning following the date of filing or as soon thereafter as their transmission is completed up to one p.m. Greenwich. This information is contained in an announcement received by the Canadian National Telegraphs from the Anglo-American Telegraph Company, which also states that cable letters will no longer be held until the uniform hour of noon. On messages such as these the rates are \$1.10 for the initial 20 words to Great Britain and Ireland and \$1.60 to Holland, excess words costing six and eight cents respectively.

Asthma!

Spread Minard's on brown paper and apply to the throat. Also inhale. Quick relief assured.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

Kenilworth—he was of the sort she was most accustomed to, only, of course, he was the super-kind that would press to his lips whatever ribbons might come to his finger tips at night, and blow them to the winds in the morning without regard for silk or cotton.

She would always have to be on her guard against Brandon. If Kenilworth carried out the threat which lurked in his calculating eyes as he let them sweep over her, she'd checkmate him, easily. Considering all persons of the other sex as hunters, Joanna felt to wondering what would be the tactics of such a man as Kenilworth who, not being by any means young, must have had divers experiences. She was brought sharply out of this reflection by the young woman with the black hair, whom Brandon had called Yvonne.

stly of the gods, doesn't it? Something like a 'gracious gift,' if I remember my mythology aright. Gods, like gift-horses, mustn't be looked in the mouth. Not even by the loveliest of their favorites. My advice to Miss Manners is to never worry over the source of her dramatic good fortune, but proceed to hire as many pipers to make music for her as she wants to pay."

"Yvonne laughed a silvery little laugh that Joanna envied. "And you, Roddy, are dying to offer yourself as one of the original pipers," she accused. "To Joanna she added brightly:

"He's a beast of prey, this Roddy. He has the same accessories in every port that a sailor is supposed to have put away for his shore leaves. You must never take him seriously. Especially when he makes furious love

If Kenilworth carried out the threat which lurked in his calculating eyes, she'd checkmate him.

"Don't you all know it's horrid, to have to pretend," Yvonne said, suddenly, allowing her fingers to flutter over Joanna's wrist, "that we aren't bubbling over with excitement about Miss Manners' amazing news? I, for one, must tell her how thrilling I think it must be."

Joanna gave her a grateful glance. "There doesn't seem to be anything else I can think about," she admitted. "If I only knew 'why' and from whom!"

"Let's see," Kenilworth mused aloud, Joanna stands for some genera-

to you." Kenilworth raised a protesting hand, but Yvonne continued, nodding at him.

"Oh, you'll be making love to her before the evening's out." She turned again to Joanna, and informed her, with a trick of dropping her voice into the inflections of a mock confidence that Joanna resolved to practice as soon as she was home: "He'll start in with your eyes, my dear: he has a fancy that young women pin their faith in their eyes and old women on their complexions."

"Don't let her mislead you," Kenilworth pleaded. "She has me confused with someone else. She is positively libelous. I never begin with the eyes, as I'll prove to you as soon as possible!"

"You see!" Yvonne exclaimed. "He prepared you for his onslaughts. You must tell me at once if I am right. I'll be the eyes I'm sure. They're quite pretty you know. I can fancy him raving over them."

Brandon came to Joanna's rescue. "She will survive, even Roddy, I'm sure," he commented. "She has a most disconcerting way of putting the proper people in the right places."

Over the coffee they talked of the money, of Graydon, and Eggleston—and quite understood Joanna's inability to make plans. As often as she could, Joanna watched Yvonne, and studied her. She was of the kind that seldom comes to the silk counter of a department store. Joanna decided she was a bright example of the butterfly who hovers gaily over the most desirable gardens in that world to which "Miss Twenty-seven of the silks," had stood no closer than the farthest edge until tonight. And she thought that Yvonne was deliberately reaching out to her, as if to bring her within some common bond. Immediately, though, she considered if this feeling were not born of her own self-consciousness.

"She concluded she would have to learn, soon, to take these new people, who lived among the hilltops and know the real ways she had always imitated, as she found them. With this resolve she smiled brightly at

Best of all Fly Killers—10c and 25c per packet at all Druggists, Grocers and General Stores.

Kenilworth. He acknowledged it by putting down his cocktail glass.

"I don't know whether you mean it or not," he said, "but you are saying to me that with so much dancing to be done before they turn us out you'd like to be getting busy. May I consider that I'm right?"

When they were on the floor Joanna asked him to repeat Yvonne's name. "I didn't hear, or I didn't understand it," she explained.

"Yvonne will do, quite satisfactorily," Kenilworth assured her. "Whoever knows her knows her well enough to forget the rest of it—if he can! Anyhow, its Countess—the Yvonne Countess you read about. There's a husband here tonight, off in a corner some place. But I don't know which one it is, the first or the last. No use asking her. She's probably forgotten."

Yvonne Countess! Now Joanna knew why her face had fascinated her; why it had seemed so vaguely familiar! Each marriage a sensation, and each divorce a greater one. She had seen her pictured regularly in the Sunday newspapers—that part of them which she really looked at, the illustrated pages. She remembered Yvonne Countess divorcing a college boy she'd run away with. A college boy, who was a scion of a family, or something like that. Yvonne Countess engaged to another millionaire's son, and then to an Egyptian prince. Yvonne Countess at Monte Carlo, shocking English duchesses with gowns that wouldn't be allowed even in the movies—one newspaper had described them just that way. And in the most daring of beach costumes at Deauville. Then married to the famous author and promptly divorced to Paris. Joanna knew her Sunday-papered history as girls of another day knew their cook books. The Paris buyer for the store had sent over a dress, one time, which he said was an exact copy of the model worn by Yvonne Countess at the Longchamps races. The store designers had added four inches to the back and front and put on shoulder straps, and made of it a best selling number in the four hundred dollar class. And she, Joanna, yesterday morning "Miss Twenty-seven," had talked with her! Had talked and held her own with her!

"Did you really mean that her husband actually is here, tonight?" she asked her companion.

"One of them. If I spot him I'll give you a nudge. He's with a new flame. Yvonne went over to them, awhile ago, to see what she's like. Says she's the kind that has golden weddings."

(To be continued)

You have to have a pull to get along in this world. Ask any fellow who has tried to make the varsity crew.

ECZEMA IN FORM OF RASH

Lasted About a Year. Healed by Cuticura.

"My scalp started to get red and itchy and had a burning feeling. Later eczema broke out in the form of a rash and spread to my face and body. It was itchy all the time, and my woolen clothing made it worse. My face was disfigured, and my hair fell out and got dry. The trouble lasted about a year."

"I began using Cuticura Soap and Ointment and after using one cake of Cuticura Soap and one box of Cuticura Ointment I was healed." (Signed) Miss Alice Bickell, R. R. 5, Woodville, Ont.

Daily use of Cuticura Soap, Ointment and Talcum helps to prevent skin troubles.

Sample Each Free by Mail. Address Canadian Agents: "The Canadian Soap Co., Ltd., 125, 127, 129, 131, 133, 135, 137, 139, 141, 143, 145, 147, 149, 151, 153, 155, 157, 159, 161, 163, 165, 167, 169, 171, 173, 175, 177, 179, 181, 183, 185, 187, 189, 191, 193, 195, 197, 199, 201, 203, 205, 207, 209, 211, 213, 215, 217, 219, 221, 223, 225, 227, 229, 231, 233, 235, 237, 239, 241, 243, 245, 247, 249, 251, 253, 255, 257, 259, 261, 263, 265, 267, 269, 271, 273, 275, 277, 279, 281, 283, 285, 287, 289, 291, 293, 295, 297, 299, 301, 303, 305, 307, 309, 311, 313, 315, 317, 319, 321, 323, 325, 327, 329, 331, 333, 335, 337, 339, 341, 343, 345, 347, 349, 351, 353, 355, 357, 359, 361, 363, 365, 367, 369, 371, 373, 375, 377, 379, 381, 383, 385, 387, 389, 391, 393, 395, 397, 399, 401, 403, 405, 407, 409, 411, 413, 415, 417, 419, 421, 423, 425, 427, 429, 431, 433, 435, 437, 439, 441, 443, 445, 447, 449, 451, 453, 455, 457, 459, 461, 463, 465, 467, 469, 471, 473, 475, 477, 479, 481, 483, 485, 487, 489, 491, 493, 495, 497, 499, 501, 503, 505, 507, 509, 511, 513, 515, 517, 519, 521, 523, 525, 527, 529, 531, 533, 535, 537, 539, 541, 543, 545, 547, 549, 551, 553, 555, 557, 559, 561, 563, 565, 567, 569, 571, 573, 575, 577, 579, 581, 583, 585, 587, 589, 591, 593, 595, 597, 599, 601, 603, 605, 607, 609, 611, 613, 615, 617, 619, 621, 623, 625, 627, 629, 631, 633, 635, 637, 639, 641, 643, 645, 647, 649, 651, 653, 655, 657, 659, 661, 663, 665, 667, 669, 671, 673, 675, 677, 679, 681, 683, 685, 687, 689, 691, 693, 695, 697, 699, 701, 703, 705, 707, 709, 711, 713, 715, 717, 719, 721, 723, 725, 727, 729, 731, 733, 735, 737, 739, 741, 743, 745, 747, 749, 751, 753, 755, 757, 759, 761, 763, 765, 767, 769, 771, 773, 775, 777, 779, 781, 783, 785, 787, 789, 791, 793, 795, 797, 799, 801, 803, 805, 807, 809, 811, 813, 815, 817, 819, 821, 823, 825, 827, 829, 831, 833, 835, 837, 839, 841, 843, 845, 847, 849, 851, 853, 855, 857, 859, 861, 863, 865, 867, 869, 871, 873, 875, 877, 879, 881, 883, 885, 887, 889, 891, 893, 895, 897, 899, 901, 903, 905, 907, 909, 911, 913, 915, 917, 919, 921, 923, 925, 927, 929, 931, 933, 935, 937, 939, 941, 943, 945, 947, 949, 951, 953, 955, 957, 959, 961, 963, 965, 967, 969, 971, 973, 975, 977, 979, 981, 983, 985, 987, 989, 991, 993, 995, 997, 999.

British Poise

Temperament, Stability and True Sportsmanship of the British People

The conduct, temper and general behavior of the British people during the great strike have called forth merited words of praise. To no nation was the unmistakable rebuke to communism more pleasing than to United States, where the foreign element is always threatening and where the real temperament, stability and true sportsmanship of the genuine Britisher is, perhaps, least understood.

The whole world is indebted to England for a system of government that works wherever it is applied, for a judicial system and code of laws which are yet unexcelled, for a spirit of true sportsmanship that allows the strongest adversary a fair chance, and now the Mother Land has with poise and dignity given such a rebuke to communism as to win the admiration of the world.—Farmer's Advocate.

A Modern Cinderella

London Saleslady is Society Debutante At Royal Court

A Cinderella in real life has been found by London society.

Miss Dorothy Knaggs, daughter of Lady Knaggs, was presented as a society debutante at the most recent brilliant Royal Court at Buckingham Palace. She was sponsored by Lady Cadham, her aunt and wife of the chairman of the Great Anglo-Persian Oil Company.

It has now been discovered that at 8 o'clock on the morning after the court, Miss Dorothy Knaggs, saleslady, presented herself for duty at a big department store. None of her fellow workers knew anything about the presentation.

The Friend of All Sufferers.—Dr. Thomas' Eucalypti Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

Little Helps For This Week

And thou shalt be secure, because there is hope.—Job ix, 18.

And, as in sparkling majesty a star Gilds the bright summit of some gloomy cloud,

Bright'ning the half-veiled face of heaven afar;

So when dark thoughts my boding spirit shroud, Sweet Hope! celestial influence round me shed,

Waving thy silver pinions o'er my head.

—John Keats.

Hope is the cordial of the human heart.

—Robert Burns

Hope never hurt anyone, never yet interfered with duty; nay, always strengthens to the performance of duty, gives courage, and clears the judgment. Saint Paul says, "We are saved by hope."

—George MacDonald.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Eucalypti Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Military Guard For Bank

Troops On Duty At the Bank of England Every Night

The custom of having a military guard at the Bank of England dates back to the time of the Lord George Gordon riots when the bank was threatened by the mob, and only relieved by the soldiers. Ever since then a guard of one officer, two sergeants, two corporals, a drummer, and 29 privates has been on duty there every night, coming off at six or seven in the morning, according to the season of the year. By custom, the guard is the guest of the bank, the officer in particular being given a rather ceremonial dinner, to which he has the privilege of inviting two friends.

"Jameson certainly had a big bump on his head when he came to the office yesterday."

"Ah, he told me that the girl he married was a brick."

Baldwin Deluged With Piles

Tobacco pipes, new and old, cheap and expensive, of every conceivable design and variety, have been showered upon Stanley Baldwin, the prime minister, in such numbers that it has become a problem at No. 10 Downing Street as to what is to be done with them.

SAVE THE CHILDREN

In Summer When Childhood ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The magul, a Mexican tree, supplies from its bark a thread three times as strong as ordinary cotton.

Minard's Liniment for Sore Feet

As Much As He Knew

After the household has been completely disorganized for three weeks, the society reporter refers to it as a "quiet home wedding."—Detroit News.

—it SAVES the FARMER'S THRESHING BILL

among cars in its price range!

In Engineering: McLaughlin-Buick pioneered the valve-in-head engine; it is the first car to provide the Triple-Seal (Air Cleaner, Oil Filter, Gas Strainer) against dirt, grit and excessive wear.

In Chassis Construction: No other car in its price class possesses the Sealed Chassis, with every working part completely enclosed—the Torque Tube Drive and the Cantilever Rear Springs.

In Performance: In power, speed and acceleration, McLaughlin-Buick, with its 75 actual horse-power engine, stands alone. Few cars, at any price, can offer the same ease of driving, steering, starting or stopping.

In Value: McLaughlin-Buick's present low prices are a revelation to those who judge its value by its quality.

In Registrations: McLaughlin-Buick leads in registrations, all cars in its price range—convincing proof of McLaughlin-Buick's irresistible appeal.

The new low G.M.A.C. financing rates are available to purchasers of McLaughlin-Buick on time.

McLAUGHLIN-BUICK
IN EVERY WAY BETTER!

LOCAL & GENERAL.

A. McNaughton returned on Saturday from a visit to the coast and reports a pleasant holiday.

The auction sale announced for July 31st, at the residence of Jas. Schmelke, has now been postponed to Saturday, August 7th.

Kendrick and Good shipped a car of cattle to Ontario last week, the first car they have shipped to this point direct. They also shipped a car of hogs to Vancouver.

Mr. and Mrs. M. Weber, who have been visiting with friends in the east for the past month, returned home on Saturday last feeling a great deal better for the trip.

Mr and Mrs W Durrer and Mr and Mrs. Reed, who for the past three weeks have been touring the States, returned home the early part of the week. They all report an exceedingly pleasant time.

A heavy rain of several hours' duration paid this district a visit on Tuesday. This practically ensures a good crop, and should, in addition, help the garden along materially.

Miss Nan Armstrong of Calgary, who has been visiting with Mr. and Mrs. W. Liphardt for a couple of weeks, will return home on Saturday accompanied by Miss Helen, daughter of Mr. and Mrs. Liphardt.

At the fair and exhibition of the Didsbury Agricultural Society to be held on August 10 and 11, a new feature, and one that is sure to attract considerable attention, will be a display of machinery by our local agents.

Rev. Dr. Heustis, travelling secretary for the Lord's Day Alliance, will occupy the pulpit in Knox United Church, Sunday evening, August 1st. Dr. Heustis is a clear and forceful speaker, and has a timely message regarding the conservation of our Sabbath Day. Come and hear him.

Mrs T. A. White of Edmonton, accompanied by her daughter, Mrs R. Goudie, have been visiting Mrs. E. Goudie and renewing acquaintanceship with friends in the district. Mrs. White is an old-time resident of this district, and has resided within the province now for twenty-seven years.

Messrs Brusso, McGhee, Watt, Morgan, and McDougal were present at a banquet in the Palliser at Calgary on Monday, in connection with the Scottish Rite. The affair was a notable one in Masonic circles, and was rendered somewhat unique by the presence of the Grandmaster of the Order in Alberta, as well as several occupying a similarly high position from other provinces of the Dominion.

The scholars attending the Sunday school of St. Cyprian's church had their customary outing on Thursday of last week, when together with about twenty or thirty adults, they were taken to Innis Lake and there treated to all the good things that usually go with such a gathering. Everyone voted their entire approval of the arrangements made for the day, and general satisfaction was expressed for the enjoyment obtained.

O.S.A. FIELD DAY AUGUST 5th.

A Farmers' Field Day is to be held at the Olds School of Agriculture, on Thursday, August 5th. The purpose of the occasion is to provide a means that will give those who attend an insight into the crop and soil field work at the O.S.A., and also obtain some valuable information on farm problems.

Make the occasion a picnic outing. Attend with the family. Bring your lunches. The O.S.A. will supply tea, coffee, milk, and facilities for games. EVERYBODY WELCOME.

SEVENTH FORTNIGHTLY CROP REPORT

Issued by Dept. of Agriculture, Government of Alberta, Edmonton, July 24th, 1926

Alberta crops are passing through the critical stage at the present time. The period has been reached when fairly definite conclusions may be arrived at respecting harvest prospects with regard to a considerable portion of the wheat crop, but the situation at present is that the continuance of hot, dry weather, or the coming of beneficial rains may effect a change of several bushels in the ultimate average yield. In view of this, the department feels it premature to make any estimate of yields at present.

Continued on page 8

AUCTION SALE

Under instructions from James Schmelke, I will sell by auction, at the residence, situated on the corner angling from W. G. Liesemer's residence, on

Saturday, August 7th

the following Household Furniture and effects: Piano (Ellington), four bedroom suites, sewing machine (new), four clocks, writing desk, kitchen table and chairs, library suite, hall rack, leather lounge, dining suite, two large rugs and some small, four rocking chairs, four jardinières and plants, washing machine and wringer, kitchen utensils, lawn mower, pump jack, thousand school books, tools, too numerous to mention, two oil stoves, gas hot water tank, two centre tables, miscellaneous articles, 10 volumes Wonder World books, vacuum cleaner, carpet stretcher and tacker, all in one.

Cash sale. Sale at two o'clock. Terms on piano if required. J. W. Phillipson, Auctioneer. Jas. Schmelke, owner.

TENDERS WANTED.

To clean and Kalsomine the walls and ceilings of the Didsbury High School, work to be completed by August 20th. Specifications can be had from M. Clemens, Secy.

Miscellaneous

WANTED—Barley or mixed grain and feeder hogs at all times.

RED ROSE TEA

"is good tea"

Red Rose Orange Pekoe is extra good. Won't you try it this time?

Have a Hobby

Among the many excellent features of that splendid organization, the Boy Scouts, is the encouragement and development of hobbies. It was recognized by the founder of the Boy Scouts that boys of a certain age invariably group together for their activities, whether in play or work; that the "gang" spirit prevails. And almost without exception these boys individually have some hobby which to them is of absorbing interest and arouses their enthusiasm, although to others it may appear quite unimportant, even futile.

It is part of the Boy Scout programme to encourage boys to adopt some hobby that is really worthwhile, one that appeals to them, and to then help them to develop a hobby to a point where it will prove of real value to them and to their fellow men. Thus the Boy Scouts offer badges for efficiency on the part of its members for an almost inconceivable number of things.

Life is full of instances of men and women who have developed their hobbies to a point where they became the real passion and business of their lives, resulting in important discoveries and inventions and bringing untold blessings to the world, as well as fame and often fortune to the hobbyist.

George Eastman, the Kodak inventor and manufacturer, was a bank clerk and, preparing for a holiday trip, he decided to take pictures of places visited to send home to his widowed mother. In those days, half a century ago, amateur photographers were few in number because the paraphernalia required was bulky and crude and the work of picture taking, developing and printing difficult. Eastman thought it could be simplified and in his spare time in his mother's kitchen made photography his hobby. The result is well known.

Luther Burbank's hobby was horticulture, and he amazed the world with his achievements in the development of new plants and flowers and in demonstrating how they could be improved in size and beauty. Jack Miner, Thompson-Seton, and others have made the life and habits of birds their hobby, with the result that mankind has learned how much we owe to the feathered folk, and how, without their help, destructive grubs, worms and insects would soon play havoc with gardens, orchards and our food supplies. Another man, Johnston by name, within the past twelve years has, as a hobby, grown all kinds of tropical and sub-tropical trees and plants with the result that he has proven that many things which the United States now imports from foreign lands to the extent of hundreds of millions of dollars can be raised at home.

Many a boy has a mechanical turn of mind which soon finds expression in some form of hobby and which, if rightly directed, encouraged and developed, may point to the occupation in which he may find the greatest enjoyment and success in life.

But apart from hobbies of this character, it is well that the business and professional man and woman should have a hobby. It should be something distinctly different from that of their everyday occupation. Thus the professional and office man will find health, recreation and downright pleasure in devoting his spare time to the development of some hobby that takes him out doors and calls for the use of his hands rather than the concentration of his mental faculties.

There is, fortunately, a growing realization of the value of hobbies, although they are not always classified as such. Service clubs in all cities are more and more turning their activities in the direction of helpful, humanitarian service. Thus we find these Club members making a real hobby out of providing outings for orphaned, under-nourished and crippled children, and finding as much pleasure in doing so as they provide for these little unfortunates.

Hobbies there are such as the collecting of stamps, coins, antiques, china, pictures and other articles too numerous to mention. These all have their value in freeing the mind from too close and constant application to business affairs and worries, even though they may not result in adding anything very worthwhile to the lives of others and the advancement of the world.

The main thing is to have a hobby. Parents should encourage their children in this direction and carefully refrain from ridiculing what may seem rather silly and purposeless to them. Sympathetic study of a child's hobbies may give a valuable indication of the direction which such child's training should be given.

Germany's Emergence

Forcibly disarmed amongst neighbors big and small still armed to the teeth, the German race is becoming potentially stronger than ever. How can they be kept for many years more under any kind of foreign dictatorship or tutelage? How can they be denied their demand for civilized equality in every respect? It cannot be done.—J. L. Garry in London Observer.

Will Develop Oil Lands

The Hudson's Bay Company has issued a statement announcing that an arrangement had been reached for the exploration and development of the company's oil rights in Canada. The arrangement is with E. W. Marland, and a company will be organized to be known as the Hudson's Bay Marland Oil Company. Arrangements for a complete geological survey of the land in question already are under way.

Radio in Canada

Six Plants in Canada Engaged in the Manufacture of Radio Equipment

Production in Canada of radio apparatus including sets, parts and batteries reached a total value of \$5,548,659 in 1925, according to a recent statement issued by the Canadian Government bureau of statistics at Ottawa. Six plants in Canada were engaged solely in the manufacture of radio sets or parts, nine other concerns made sets and parts in conjunction with the manufacture of other electrical apparatus and 12 of the manufacturers of batteries in Canada reported an output for radio purposes.

Statistics for 1925 show a substantial growth in the radio industry during that year and also reveal a tendency toward the production of complete sets rather than the manufacture of separate parts. In 1925 the number of complete sets manufactured by these companies was 48,198 and the selling value, f.o.b. works, was given as \$2,196,024. Production of vacuum tubes amounted in value to \$1,299,684 and was double that of the previous year.

Radio licenses were issued by the department of marine and fisheries during the twelve months ending March, 1926, to 134,486 persons. Ontario led all provinces with a total of 60,110; Quebec was next with 21,141. Registrations in the other areas were as follows: Saskatchewan, 15,944; Manitoba, 14,503; British Columbia, 1,494; Alberta, 7,152; Nova Scotia, 3,288; New Brunswick, 2,612; Prince Edward Island, 202; Yukon, 23; and the Northwest Territories, 17. Licensed broadcasting stations, not including amateurs, numbered 55, distributed as follows: Ontario, 24; British Columbia, 10; Saskatchewan, 7; Alberta, 6; Quebec, 4; Manitoba, 2; New Brunswick and Prince Edward Island, 1 each.

SOME SYMPTOMS OF THIN BLOOD

Everybody Should be Able to Recognize Them Because Early Treatment is Important

Anemia, or lack of blood, is a stealthy disease and is often quite advanced before it is recognized. It is much easier to correct in its early stages, but if unchecked causes weakness, loss of weight, lack of vigor and ambition.

Some symptoms of anaemia are loss of appetite, indigestion, headaches, sleeplessness, shortness of breath after slight exertion, and often extreme nervousness. If you have any or all of these symptoms begin treatment now with Dr. Williams' Pink Pills, the tonic which will make the blood rich and plentiful. Every part of the body will respond to this treatment as is shown by the case of Mrs. Isaac Bell, Sr., Port Anson, Ont., who says:—"A few years ago I was a very sickly woman. I was all run down and my nerves badly shattered. I had taken doctor's medicine, but as I got no help from it, I tried other medicines, but with no better results. One day while reading a newspaper, I came across an advertisement of Dr. Williams' Pink Pills describing a case very much like my own. I decided to try them, and by the time I had taken two boxes I could feel the benefit I was getting from them, so I cheerfully continued the treatment and was soon a well woman in better health than I had enjoyed for some years. In view of what Dr. Williams' Pink Pills have done for me I cheerfully recommend their use to all weak, run-down people."

Dr. Williams' Pink Pills are sold by all druggists, or may be had by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont. A free booklet, "Building Up the Blood," will be sent to any address on request.

Canada Protects Railways

The custom of American manufacturers of automobiles to drive new cars across the Canadian border has aroused the customs department at Ottawa, the officials of which maintain that this is a discrimination against the railways that should be stopped. They say it is not only unfair to the railways, but if allowed to continue would cause congestion in the highways at times.

Corn causes much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

The visitors' register of the Los Angeles Chamber of Commerce is a book weighing 340 pounds and containing 4,000 pages.

Minard's Liniment for Rheumatism

W. N. U. 1639

The fly family learns the shortest distance between two points

GERMS—6,000,000 germs on a single fly, says a noted health officer. Protect your family with Flit. Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and sprayer today.

Will Be Presented With Medal

Scottish Scientist To Be Honored By American Chemical Society

Sir James Irvine, principal of the University of St. Andrew's, Scotland, since 1921, and a member of the advisory council, department of scientific and industrial research, has arrived in Canada. The object of his visit to this continent is to receive the Willard-Gibbs gold medal from the American Chemical Society. The last scientist of note to whom this medal was awarded was Madame Curie. Although Sir James was of inestimable value to the British Government during the war on account of his studies and discoveries of antidotes for poison gas, the American Chemical Society is presenting him with its high token in recognition of his valuable researches on sugar—principally dealing with starch and cellulose. The presentation is to take place in Chicago, September 17.

Minard's Liniment for Burns

Question Of Naturalization

This Matter is to Come Before the Imperial Conference

The fact that Canada was the only Dominion that had failed to reply to a circular from the Dominions' office relating to the naturalization of children of British subjects born abroad during the war, was mentioned in the British House of Lords by Lord Desborough.

Replying to a question he stated that nationality having become a subject of imperial importance, it would be placed on the agenda of the imperial conference.

Director of Fox Breeders

Matthew Snow, of Winnipeg, was elected western director of the Canadian Fox Breeders' Association in convention at Summerside, P.E.I. P. J. Clark, of Summerside, was elected president.

Relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Poor Boys' Road to Fame

Is the country reaching a state in which it will be necessary to put it that any poor boy can aspire to high office provided he can first become a rich man?—Boston Transcript.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

When a bachelor does find his ideal woman it may be only to discover that she is looking elsewhere for her ideal man.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

A man never really knows the value of a dollar bill until he is followed by a persistent collector.

ELECTION DATE ANNOUNCED FOR SEPTEMBER 14

Ottawa.—Canada goes to the polls on Tuesday, September 14. In his speech here, Rt. Hon. Arthur Meighen definitely announced the date. The campaign will be of just eight weeks' duration.

Premier Meighen opened his Dominion campaign here in the Auditorium. He opened with the charge that in every attempt at initiating important legislation, the King Government had bungled and many times been compelled to reverse its proposals and withdraw its bills. In the main the prime minister dealt with revelations before the customs committee and with the constitutional issues raised by Rt. Hon. W. L. Mackenzie King.

On the customs department issue, the premier said the government of Mr. King had been so buried under revelations of wrong-doing that it was only natural that Mr. King should choose some other issue. The name of the king's representative had been dragged into the arena, the conduct of His Majesty's representative had been flatly challenged by Mr. King on the floor of parliament, "and from that challenge," the prime minister pursued, "I think Mr. Mackenzie King himself would now like to escape." No action could be more censurable "in the presence of the admitted truth that the representative of His Majesty acted with scrupulous honesty."

To Visit Dominion

American National Editorial Association Will Tour Canada

Victoria, B.C.—Favorable impressions gained by members of the National Editorial Association of the United States on their periodical visit to Canada has been a means of encouraging an influx of settlers into Western Canada. This was the view expressed here by Wallace Odell, past president of the association, who is leading a party of 150 journalists across the Dominion on their return east from the 41st annual convention at Los Angeles.

The party will split at Vancouver, about 50 leaving for a trip to Alaska and the remainder wandering at leisure through the Canadian provinces. In the party are five delegates who visited the Dominion in 1899.

Mission to Britain Fails

B.C. Indians Advised To Take Up Grievance With Canadian Government

Montreal.—The three Indian chiefs from Douglas, B.C., Johnny Chilli-chitsa, William Perrish and Basil David, who with their interpreter, Mrs. J. C. Williams, went to London representing three tribes in the hope of interviewing King George in connection with their rights to lands in the western province, have returned to Canada.

They report that their attempts met with failure in that the high commissioner in London advised them to return to Canada and take up the matter with the Canadian Government for settlement.

Ontario Candidates

Toronto.—Eighteen candidates have been nominated in Ontario to date to contest the federal elections, including ten Conservatives, six Liberals and two Progressives. Nominations included the names of John L. Stansell, Simcoe, former Conservative member, in Norfolk-Elgin, and Thos. Rowley, Leamington, Liberal, in Essex South.

Canada Must Be Represented

Melbourne.—If Canada is not represented at the Imperial Conference set for October 5 next, then the conference can accomplish no great results, Premier Stanley Bruce declared in the House of Representatives here.

Liquor Agreement With U. S.

Madrid.—The Spanish cabinet has approved ratification of the agreement with the United States regarding alcoholic liquors.

W. N. U. 1639

King To Run In Prince Albert

Accepts Nomination in Northern Riding for Federal Elections

Ottawa.—Right Hon. W. L. Mackenzie King, former prime minister, telegraphed the Liberal Association in Prince Albert, Sask., accepting the nomination for the Liberal candidature in the September election.

At the same time, Mr. King communicated his regrets to the Liberals of North York, who also sought to name him as their standard-bearer.

He pointed out to the latter that he would be compelled to spend most of the time between now and election day in a coast-to-coast campaign and therefore would not be able to devote to North York the time and energy necessary to redeem the riding. "I have felt," he adds, "that to enable me to serve the party's interest in the largest way, I should avail myself of the greater freedom which the acceptance of the nomination by the Liberals of Prince Albert will thus afford."

To Manage Wheat

Pool Elevators

C. M. Hall Will Have Charge of Pool Elevators in Alberta

Calgary.—C. M. Hall, manager of the Alberta Pacific Grain Company, has been appointed general manager of the Alberta Wheat Pool elevators. It is officially announced. He will assume his duties on August 15.

Mr. Hall has been associated with the Alberta Pacific Grain Company for the last eleven years.

Thomas E. Oliver, also of the Alberta Pacific Grain Company, has been appointed assistant to Mr. Hall. It is not generally known that the wheat pool has already purchased 18 elevators in Alberta and have contracted for building fifteen more which it is expected will be ready for business this year.

Harvest In Northern States

Minnesota and Dakotas Commence to Gather in Crops

Minneapolis.—The northwest's 1926 harvest has begun.

Harvesting of small grain is under way in several sections of the northwest, and will become general within a week or ten days.

In southern South Dakota and Minnesota, harvesting of wheat is under way, and some oats and barley is being cut. Central South Dakota and Minnesota farmers will start harvest within a week, while other reports said that some harvesting will open in Northern Minnesota and North Dakota within four to eight days.

The first threshing of the season in South Dakota was reported on the Ole Hinseth farm in the Irene district, near Sioux Falls. Threshing will be general within two weeks.

New Goal Is Set

Greater Diversity of Crops Is Needed in the West

Regina, Sask.—A new goal was set up by Aaron Sapiro for Saskatchewan farmers and business men to aim at. This was the rounding out of Saskatchewan as an agricultural province by the introduction of greater diversity in crops.

After words of unstinted praise for the Saskatchewan farmers in making incredible strides in its pool organizations, Mr. Sapiro, addressing the Canadian Club here, went on to compare Canada in this respect with the United States, very much to the advantage of the former.

Further Home Bank Claims

Toronto.—The 1,800 claims filed by persons who had more than \$500 on deposit in the Home Bank when that institution closed its doors, are to be taken up at a conference in Ottawa, which L. E. Weldon, liquidator, representing the depositors, left here to attend. There is approximately \$700,000 yet to be distributed to Home Bank depositors, and just what percentage of this the 1,800 claimants will receive may be announced within the next few days.

To Visit U. S.

Geneva.—The Rumanian delegation to the League of Nations Commission on Intellectual Co-operation, announces that Queen Marie plans to visit the United States this fall. Her Majesty probably will sail from a French port about September 15.

BRITISH TRADE IS DEPENDENT ON PREFERENCE

London.—Third reading of the finance bill was given in the House of Commons after the house had rejected by a vote of 324 to 117 a Laborite motion which would have thrown the bill out.

British trade in recent times has been saved by the amount of British manufactures taken by the dominions and colonies of the empire. Rt. Hon. Sir Robert Horne, former Conservative chancellor of the exchequer, declared in reply to the attack on imperial preference, which is provided for in the bill, by Capt. Wedgwood Benn, Liberal, British exports to the various parts of the empire represented forty-four per cent. of her total trade.

"Does anyone imagine that we could keep these markets without the dominions' preferences?" he asked.

The result of Australia's increasing British preferences was that 53 per cent. of her imports were British manufactures. How did Wedgwood Benn anticipate keeping the dominions' preferences if Britain did nothing in return, Sir Robert continued.

He pointed out that there had been propaganda in Canada in favor of reducing or even abolishing the British preferences if Britain did not reciprocate more than she was doing, and he referred to a magazine article by the prime minister of Australia, written last year, declaring that Australia could not be expected to turn a deaf ear to the more favorable offers from other countries if Britain did not reciprocate her preferences to a greater extent.

Poincare To Form Cabinet

Takes Up Task Of Forming Government in France

Paris.—Raymond Poincare, former president of the republic and former premier, will take up the task of organizing a new cabinet to replace that headed by Edouard Herriot, which failed to receive the support of the chamber.

President Doumergue, in deference to the general desire of parliament, the press and public, decided that the time was ripe for a national ministry representing all, or as many parties as possible to work for the rehabilitation of the finances of France. He asked M. Poincare to organize such a ministry, and this Poincare agreed to do.

May Sell Interest

Dublin.—Minister of Finance Blythe announced in the Dail that the Irish Free State Government proposed to sell the government's interest in the National Land Bank to the Bank of Ireland for £203,000.

Students Tour in China and Japan

Indicating the great attraction which "the Immemorial East" exercises on the Occident, here are a group of happy student boys who are determined to see for themselves what everyone at some time or other talks about and discusses. They are photographed on board the Canadian Pacific liner Empress of Russia and sailed recently on that ship for the Orient from Vancouver for a six weeks' tour of China and Japan under the auspices of the Arts and Crafts Guild. In that time they will see many of the famous shrines and cities of the two countries and will come back with a wealth of new ideas reinforced by actual experience of the two greatest examples of the East. They will return to Canada on the Empress of Russia arriving at Vancouver, August 9.

Laborite Is Reproved

Jack Jones Is Ejected From the British House

London.—Jack Jones, irresponsible Laborite M.P., figured in another scene in the commons and had to withdraw from the house on the speaker's orders.

During the question period some members grumbled because the minister of mines, Lt.-Col. G. R. Lane-Fox, was not present, and Jones said: "Is not the real reason that the minister of mines is incapable of answering questions?"

He refused to withdraw the remark, which the speaker declared was grossly improper, and was ordered from the house. Two weeks ago Jones caused a stir when he called Lady Astor a liar. Reproved by the chair he substituted Churchill's phrase "terminological inexactitude."

Alberta Harvest Labor

Province Will Require Thirteen Thousand Laborers This Season

Edmonton.—Thirteen thousand harvester laborers for Alberta this year is the estimate of the province's requirements as reported by Hon. Alex. Ross, minister of labor.

This is an increase of about 3,000 over last year's figures, which is accounted for in part by the better crop prospects and in part also by the fact that there will not be as much labor obtainable locally.

It is not expected more than 4,000 men will be available within the province itself and more than three times that number will have to be brought in from the outside.

More Self Discipline

Ramsay MacDonald Says Youth Requires More Discipline Than Ever

London.—Harsher self discipline was urged upon the youth of today by former Premier J. Ramsay MacDonald, addressing a huge throng at a session of the World's Christian Endeavor convention at Crystal Palace. Because of the misery the world was reaping from the sowing of a few years ago, he said, youth required a discipline severer, more drastic and more hardening in spiritual things than had been called for by any generation for a long period. The speech was roundly applauded.

Lord Willingdon Congratulated

London.—Viscount and Lady Willingdon were among a distinguished gathering at a luncheon tendered by the British Indian Union, and the Marquis of Reading, former viceroy of India, took the occasion to toast the man who had been appointed to succeed Lord Byng as governor-general of Canada. The luncheon was held under the chairmanship of the Duke of Connaught, who has himself served as governor-general to Canada.

PROGRESSIVE AND LIBERAL FUSION IN MANITOBA

Winnipeg.—Liberal and Progressive fusion arrangements in Manitoba thus far consummated means unquestionably the loss of four Conservative seats. Last fall Selkirk was won by the Conservatives polling 3,593 votes, while the Progressives and Liberals combined polled 5,958. Now but one candidate will confront the Conservatives there, making that seat certain for King. In Marquette, an overwhelming Progressive seat, where Hon. Thos. Crerar twice won by 7,000 majority, the Conservatives cast last fall 3,441 and won, though the Progressive and Liberal candidates had 4,534. Now with fusion established the Conservatives cannot hope to win that seat.

The same story is true of Neepawa where the Conservatives elected their man by a total vote of 3,647 while the Progressive and Liberal candidates polled together 5,228.

Fusion has also been completed in Dauphin, another seat won by the Conservatives last year in a three-sided contest by a small margin. At a meeting of the executive, where Hon. Chas. Dunning went into the fusion plans with the Manitoba organization, it was pointed out that fusion candidates would probably also appear in all other rural seats of Manitoba. If that is completed it means four of the seven Conservatives who won seats last fall will be hopelessly outvoted in September and perhaps others.

Hon. Robert Rogers, former member for South Winnipeg, will again contest the seat at the coming federal elections. Mr. Rogers, who was the chief speaker at a meeting of the executive of the South Winnipeg Conservative Association, definitely announced that he would be in the field again, thus putting a quietus on rumors which had held that he would be elevated to the senate or offered the lieutenant-governorship of Manitoba.

Premier Meighen will spend seven days in Manitoba on his western campaign tour, which will open on August 7, it was announced here. His first Manitoba meeting will probably be in the constituency of Marquette.

The prime minister will spend four days in the province on his way west and three days on his return. His meetings will include one in Winnipeg.

Government Plane Crashes

Three Are Injured in Mishap to Ontario Forestry Plane

Sudbury, Ont.—One of the Ontario government forestry planes in charge of Aviator Smith, crashed into the waters of Lake Ramsay near the air base here. There were five persons in the plane, another aviator being with Smith, and three civilians, Alex. McLeod, well-known Ford dealer of Sudbury, his daughter Myrtle, and Mrs. Clements, of Chicago, who is a summer visitor at the McLeod home. Mr. McLeod is severely injured and may not recover. Both ladies suffered severe bruises and cuts, but their condition is not dangerous. All three are in St. Joseph's hospital. The two aviators escaped uninjured.

Rejects Beer By the Glass

New Westminster, B.C.—By a majority of approximately 365, the voters of New Westminster rejected a proposal to allow the opening here of establishments for dispensing beer by the glass, such as those in Vancouver and other centres in British Columbia which voted in their favor in the first plebiscite held last year. At that time the proposal was voted down here by a majority of about 800, and the second plebiscite was held following the filing with the provincial authorities of a petition bearing the names of the required percentage of voters.

Eleven Are Drowned

Lindsay, Ont.—Eleven young men and boys, ranging in age from 16 to 22 years, drowned in the waters of Bassam Lake, 85 miles northeast of Toronto, when the war canoe in which they had set out to replenish the supplies of their summer camp was capsized. Four members of the party reached land after clinging to the upturned craft for more than five hours.

H. E. Roppel, pastor
During the month of August, the pastor, H.E. Roppel will preach a series of vesper sermons based on the study of five great gospel hymns as follows:-

Sunday, Aug. 1st, "Jesus Lover of My Soul." Key note -- Seeking refuge.

Aug. 8th, "Lead Kindly Light." Key note -- Seeking guidance.

Aug. 15th, "Take My Life and let it be." Key note -- Consecration

Aug. 22nd, "Stand up for Jesus." Key note -- Loyalty to Christ.

Aug. 29th, "Abide with me." Key note -- Evening prayer.

Notice:- This series begins next Sunday evening and all who desire to get the most out of it should plan to be in attendance for each sermon and not miss one of them because of their logical connection.

The Evangelical S.S. at Sunnyside observed Children's Day last Sunday morning with marked success. The select home was filled to capacity, the program was unique and the offering was \$18.00, which is \$5.00 more than any previous year. The offering from the three S.S. of the circuit are as follows:- Didsbury \$16.00; Westcott \$20.00; and Sunnyside \$18. Total \$54.00 for foreign mission from Children's Day. In all this is \$18 more than last year from the circuit.

Preparing Sheaves.

Continued from page 1
from which the leaves have been carefully trimmed. Colored ribbon from half to three-quarters of an inch in width may be used with good effect to cover the binding cords. The sheaf should be wrapped in paper, carefully tied and fitted snugly into a box before shipping.

In preparing threshed grain for exhibition purposes the main objective is to secure a sample composed of grain which is plump, sound, bright, uniform in size and shape and free from all impurities. Care should be exercised to avoid damaging the grain in any way when preparing it for exhibition. Excellent samples frequently are disqualified on account of damage done by over zealous exhibitors who "clip" their grain in order to make it appear plumper. This applies particularly to oats and barley.

CROP REPORT

From page 4

In the south-eastern section there will be some very light crop, interspersed with some good fields.

In the south-western, central and northern sections, with the exception of the territory above referred to, the situation generally is satisfactory, though more rain would be welcome to relieve the present hot spell. Along the eastern border of the province from Lloydminster to Youngstown the crops are very good, though somewhat spotty. In the district from Redwood south to Calgary, there have been heavy rains in the past week and a heavy crop is anticipated in this territory.

Over a large section of the province oats and barley are likely to be somewhat short this year. The late sown grains have not done so well, having suffered from the hot dry weather.

The bulk of the wheat is in head, and maturing rapidly.

Harvesting will commence in some of the early districts in the first week in August, but cutting will not likely become general until after August 15th. The labor department estimates a requirement of 13,000 for the harvest, which is a greater number than last year.
